

Literacy:

Write instructions for your material experiment.

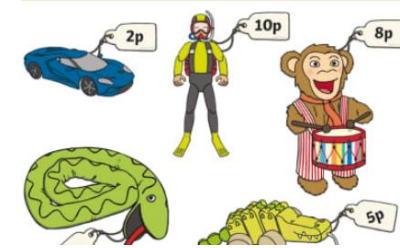

Remember to number your instructions and use bossy verbs.

Maths:

Toy shop

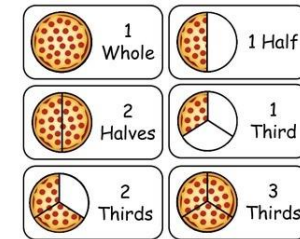

Collect items around your house, add price tags and add the prices up.

(e.g $12p+7p=19p$)

Maths

Find fractions using a cake or pizza. You can use real food or draw it. Try and find $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$.

Summer 1

Year 2

Homework Grid

Literacy:

Describe your own castle.

Think about:

Where it is?

Who lives there?

What does it look like?

Write your ideas in sentences using adjectives.

Science

Go on a material hunt.

Create a science experiment to see how materials can affect how a car travels.

Use a toy car to see what material makes the car go the fastest and what material makes the

car go the slowest.

Creative:

Create a castle using junk modelling
