

Science – Our topic is Evolution and Inheritance

Research the following animals and investigate how they have adapted and evolved over time. Include how the animals use camouflage to survive, and how this effects their habitats, diet and lifecycles. You can choose how to present your work.

Leafy sea-dragon, Peacock flounder and Three-toed sloth.

Year 6 Creative Homework

Summer 1

Maths

Keep working on your times tables and booster tasks. Look out for assigned tasks on Mathletics.

History – Our topic this half term is Local History: What impact did WW1/2 have on our local area?

- Consider and research changes to the local area within the last 100 years – create a timeline.
- Create a propaganda poster
- Research rationing and make comparisons to what you eat today. Create an informative poster

Creative – Our Art topic this half term is working with colour focusing on the artist Henri Matisse.

- Create a factsheet or powerpoint about the art movement Fauvism – include information about paintings and artists.
- Create a piece of art in the style of Henri Matisse – focus on colour and pattern.

Literacy

- Research an African country of your choice! What can you find out about the wildlife? Culture? Traditions? Food? Clothing etc Choose how you would like to present your findings!
- Write a poem about you and your family! You might include names, ages, appearances, differences, habits, special talents and hobbies!
- Can you make your poem humorous?

Please ensure you complete, at least, 1 task from each subject. Homework is due in - week commencing 20th May 2024.
