

Science

There are about 30 million species of invertebrates in the world!

Create a fact file about an invertebrate of your choice, for example an arachnid. Include diagrams, key facts and information. You could also create a model or painting of your chosen invertebrate!

Maths

- Complete the Mathematics activities assigned.
- Rehearse both your long multiplication and division.
- Keep practising your times tables!

History - Our History topic for this half term is the Maya Civilization.

Find out about a historical Maya site today, and what archaeological evidence has survived – such as pyramids, temples, ball courts, plazas, stela. You can choose how to present the information.

- Caracol • Chichen Itza • Coba • Copan • Mayapan • Palenque • Tikal • Uxmal

Creative

1. Can you design and create your own mask or headdress for a Maya priest to wear during his festival dance?
2. Can you design and create a Maya god for display using collage materials?

Literacy

1. Write a story set in the Maya period – think carefully about describing the setting.
2. Imagine that you are a biologist studying animal life in a remote part of the world. You discover a new species of mammal. Write a letter to a fellow scientist, describing your new discovery! Include accurate facts about mammals, for example, they give birth to live young and grow hair or fur.

Choose one Literacy, one Science, one Creative and one History task to complete, as well as all of the maths.

Homework is due in on Friday 07.2.25 and will be shared with the class.
