

I love exploring nature and understanding how plants grow.

Year 2

I enjoy science because of all the practical experiments and all the things that we learn over multiple topics.

Year 6

My favourite thing about science is that it is fun, and we get to explore the world around us and I also like the experiments we do!

Year 5

Science is fun and I really enjoy doing experiments.

Year 3

I like experiments and exploring nature and finding out new things.

Year 3

I enjoy science because I enjoy learning new things like the parts of the body.

Year 4

**Pupil Voice**

I enjoy Science because Longlands  
of all the hands-on practical  
experiments, and learning about  
Space was fun!

Year 5

Science is fun at Longlands  
because of the practical  
experiments and skills that  
we use.

Year 4

**Pupil Voice**

I enjoy science for multiple  
different reasons. The thing I  
enjoy the most are the experiments  
and learning new things that I have  
never seen.

Year 6

I like working in a group and  
I enjoy sharing our ideas and  
doing practical tests.

Year 2
